ABHAY NEGI

Dehradun, Uttarakhand | +91-7536012549 | anegi5560@gmail.com | LinkedIn | GitHub

Professional Summary

Computer Science undergraduate with hands-on experience in **product management, user research, data analysis, and product execution**. Experienced in **requirement gathering, feature prioritization, customer segmentation, KPI analysis, and cross-functional collaboration**. Interested in building simple, useful products by understanding users and translating their problems into practical solutions.

Education

Vellore Institute of Technology (VIT Bhopal) **GPA: 8.85 / 10.0**
B.Tech in Computer Science and Engineering *Aug 2023 – May 2027*

Experience

Vyapar *Jul 2026 – Present*
Program Manager Intern

- Coordinated with engineering, QA, and support teams to deliver **autodialer enhancements**, including Pitch Assistant and tier-wise product recommendations, supporting requirements, testing, and rollout.
- Worked on **AI-powered calling workflows** using Convin and Convozen across 6.7K customers, analyzing lead assignment, duplicate handling, and conversion outcomes to identify process improvements.
- Used **QuickSight, Redash, Mixpanel, Excel, and Google Sheets** to analyze customer cohorts, lead-assignment trends, product usage, and conversion funnels; evaluated a campaign reaching 100K users and generating 555 leads and 10 license sales.
- Streamlined business-category classification from **7,000+ categories to 44 standardized categories**, improving data organization and supporting more consistent customer segmentation.
- Coordinated **hardware-driver testing and validation** for label and thermal printers across Windows and macOS, tracking manufacturer issues and collaborating with engineering and support teams on testing dependencies.

amasQIS.ai *May 2025 – Oct 2025*
Full Stack Intern

- Gathered product requirements from multiple teams and translated **stakeholder needs into clear product features**.
- Analyzed **30+ user workflows**, identified 12 critical UI issues, and contributed to improving the overall user experience.
- Defined acceptance criteria and tested **3 core features**, reducing average bug resolution time by approximately 30%.
- Used user drop-off data to improve Firebase Authentication, reducing login errors by approximately 20%.

Projects

Banking Risk Analytics Dashboard GitHub

- Defined business KPIs with simulated banking stakeholders and translated requirements into an interactive **Power BI dashboard** analyzing 50,000+ customer records.
- Designed a relational data model with **8 tables and 20+ DAX measures**, enabling stakeholders to self-serve insights and reducing reliance on manual reporting.
- Identified **3 customer risk segments** and lending distribution patterns through data analysis, informing product strategy recommendations.

UniVibe – Peer Interaction Platform GitHub

- Owned the **end-to-end product lifecycle** including user research, requirements definition, feature prioritization, development, and iterative improvement.
- Mapped core user journeys across onboarding, matching, and messaging; implemented preference-based matching that improved engagement and reduced session setup time from **4 minutes to under 90 seconds**.
- Tracked feature performance post-launch and resolved **30+ bugs** through structured testing, improving application uptime by 25%.

Skills

- **Product:**User Research, Feature Prioritization, User Journey Mapping, A/B Testing Fundamentals, Stakeholder Management, Product Roadmapping
- **Analytics:** SQL, Power BI, Python, Pandas, NumPy, DAX, KPI Tracking, Exploratory Data Analysis, Business Intelligence
- **Technical:** Firebase, Git, GitHub, Jupyter Notebook
- **Methodologies:** Agile, Scrum, Cross-functional Collaboration, Problem Solving

Leadership & Extracurricular

National Service Scheme (NSS), VIT Bhopal

- Coordinated logistics for **4 community outreach events** serving 200+ beneficiaries and led a 5-member sub-team.
- Co-organised **3 cultural events** with 150+ attendees each, owning promotion and execution and increasing participant engagement by 40% through targeted social media outreach.
